SPACE SUPPORT

www.uispair.com

UISPAIR® 优思佩

The mission of Uispair is to form an independent space application in an open space through the establishment of rapid assembly products - room in room "space box". The establishment of INCUBE is reflected in our provision of high-quality, healthy and efficient work for people. As the values of lifestyle, each unique and independent space is carefully created to help the company perform its best performance, create a happy working environment, and create social value. The space box provides an efficient, safe and comfortable place for work and communication, which can be quickly and flexibly added to the open space without complicated decoration and construction. It is the characteristic of building a modern and efficient office. The space box has a good sound insulation and privacy effect, which can prevent sound from entering or leaving the space, providing a fresh and healthy working environment. And in other public spaces such as airports, libraries, or shopping malls, Space Box can also be customized to provide good services according to needs. No matter where you are, or with different content, you can quickly solve the problem of establishing an independent private space and create a corresponding application function environment.

优思佩的使命是通过建立快速装配化产品，形成开放空间中的独立存在的应用空间——“room in room 空间盒子”。产品设计体现于我们对人们提供优质、健康、高效的工作生活方式的价值观，精心打造每一个独具特色，从而帮助公司发挥最佳表现，创造快乐的工作环境，缔造社会价值。空间盒子提了高效、安全、舒适的工作、沟通场所，可以快速灵活的补充到开放空间中，不需要繁杂装修，建立现代高效办公室。空间盒子有很好的隔音及私密效果，可以阻止声音进入或传出，提供一个清新健康的工作环境。并且在其它比如机场、图书馆或商场等公共领域中，空间盒子也可以按需求定制，无论身处何地，不同使用内容，都可以快速解决建立独立私密空间难题，并创建相应的应用功能环境。

We provide independent and movable space, making the space function more flexible.
我们提供独立且可移动空间，让空间功能更加灵活。

Telephone Box

电话盒子

个人独立沟通的模块，在公共空间中有一个独处的地方，不受干扰自由通讯。

The module of personal independent communication has a private place in the public space without interference with the outside world.

Work Box

工作盒子

独立工作模块，这个是灵活的工作空间，需要一个私有领地让灵感发生。

Independent work modules, this is a flexible work space and a private space for ideas and inspiration to take place.

Communication Box

洽谈盒子

多人的封闭洽谈模块，享受独立的会客空间及注重私密，并采用更轻松舒适的沟通方式。

Multi-person closed communication module, enjoy the independent meeting space and privacy, and adopt a more relaxed and comfortable communication way.

Bar Box

吧台盒子

独立休闲模块，这个是灵活的休闲空间，需要一个私有领地让身体放空。

Independent work modules, this is a flexible work space and a private space for ideas and inspiration to take place.

Communication Box

洽谈盒子

多人的封闭洽谈模块，享受独立的会客空间及注重私密，并采用更轻松舒适的沟通方式。

Multi-person closed communication module, enjoy the independent meeting space and privacy, and adopt a more relaxed and comfortable communication way.

Meeting Box

会议盒子

多人的会议或团队工作模块，开一个封闭正规的会议，并可添加多媒体信息模块让会议更智能高效。

Multi-person meeting or team work module, a closed formal meeting, and can add multimedia information module to make the meeting more intelligent and efficient.

Reception Box

会客盒子

会客或商议模块，在一个封闭正规的空间里面会客，并可添加多媒体信息模块让讨论更智能高效。

Multi-person meeting or team work module, a closed formal meeting, and can add multimedia information module to make the meeting more intelligent and efficient.

Teaching Box

授课/直播盒子

传授和讲解模块，在一个封闭正规的空间里面去教导授课，并可添加多媒体信息模块让授课更智能高效。

Teach and explain modules, teach and teach in a closed and formal space, and add multimedia information modules to make teaching more intelligent and efficient.

Sleep Box

睡眠盒子

休息解决方案模块，不要让疲劳耽误你的进程，在不影响他人的情况下安静的好好休息一会。

Rest solution modules,Do not let fatigue get in the way of you progress and take a quiet break without affecting others.

Coffee Box

咖啡盒子

水吧休闲模块，现代空间需要一个地方，它是你心目中的咖啡厅，满足你真实的需要。

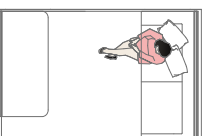

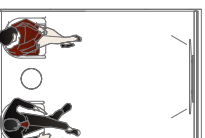

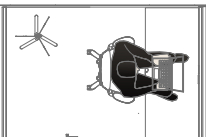

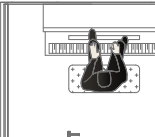

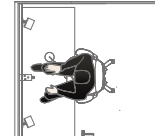

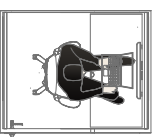

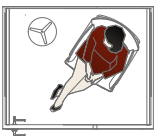

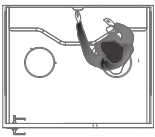

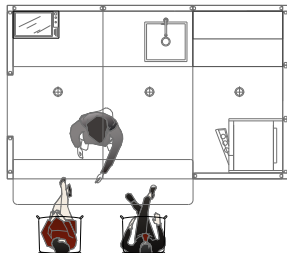

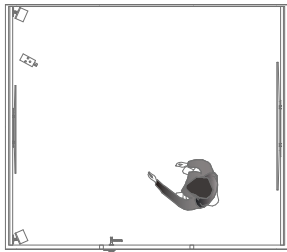

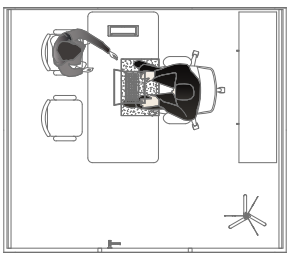

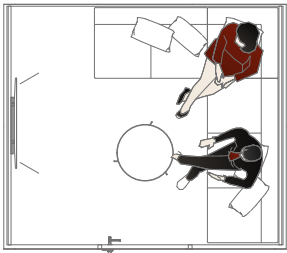

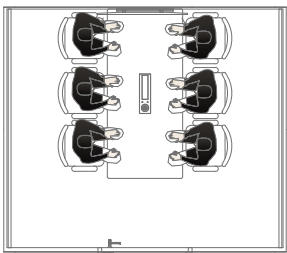

Water bar leisure module, modern space needs a place.it is your idea of a coffee shop, full of your real needs.

Mother and baby/Cinema Box

母婴/影院盒子

更多组合可能，可灵活定制不同模块。

More combinations are possible, and different modules can be flexibly customized.

BOX

About

"Work-Life Era": The boundary between work and life is blurring. People spend a long time at work, so that the workplace can bring the needs and importance of belonging and comfort to become increasingly prominent. At the same time, we will usher in a constantly changing and highly connected environment that will constantly adapt and update based on data. According to Uispair, the design of office space must be able to withstand time, especially in this ever-changing era, flexibility is increasingly important. The square is the most basic form of ancient Chinese urban architecture, representing conformity, tranquility, stability, safety and equality. May wish to experience the "work box" of Uispair for yourself, try to see more social and economic changes that may have an impact on the office space, and let your imagination about future office design fly farther.

“工作—生活时代”：工作与生活的边界正在模糊，人们长时间身处工作态，让工作场所能带来在归属感和舒适度上的需求及重要性日益凸显。与此同时，我们将迎来不断变化而又高度连接的环境，这些环境会基于数据而不断适应和更新。在优思佩看来，办公空间设计亦要能经受时间洗练，特别是在这个愈发瞬息万变的时代，灵活性显得日益重要。方形是中国古代城市建筑最基本的形态,代表着符合、安宁、稳固、安全和平等。不妨亲身感受优思佩的“工作盒子”，尝试看到更多可能对办公空间产生影响的社会和经济变化，让关于未来办公设计的想象飞得更远。

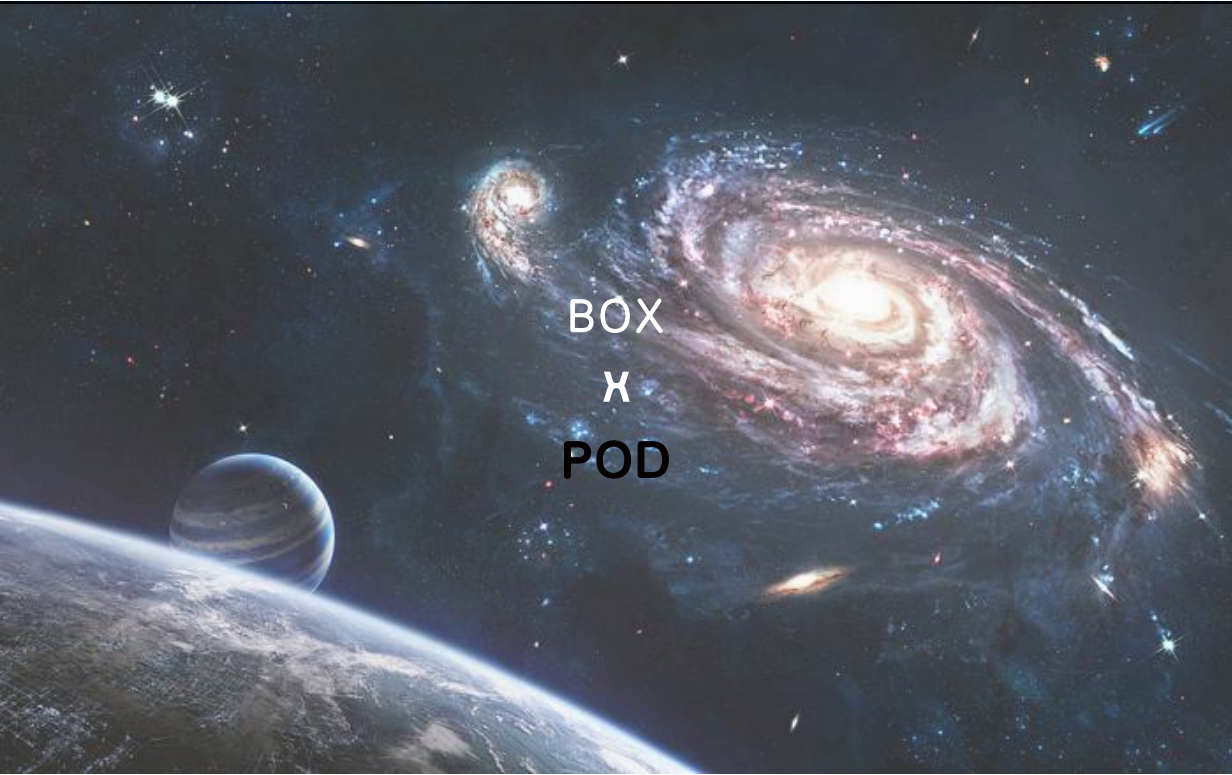

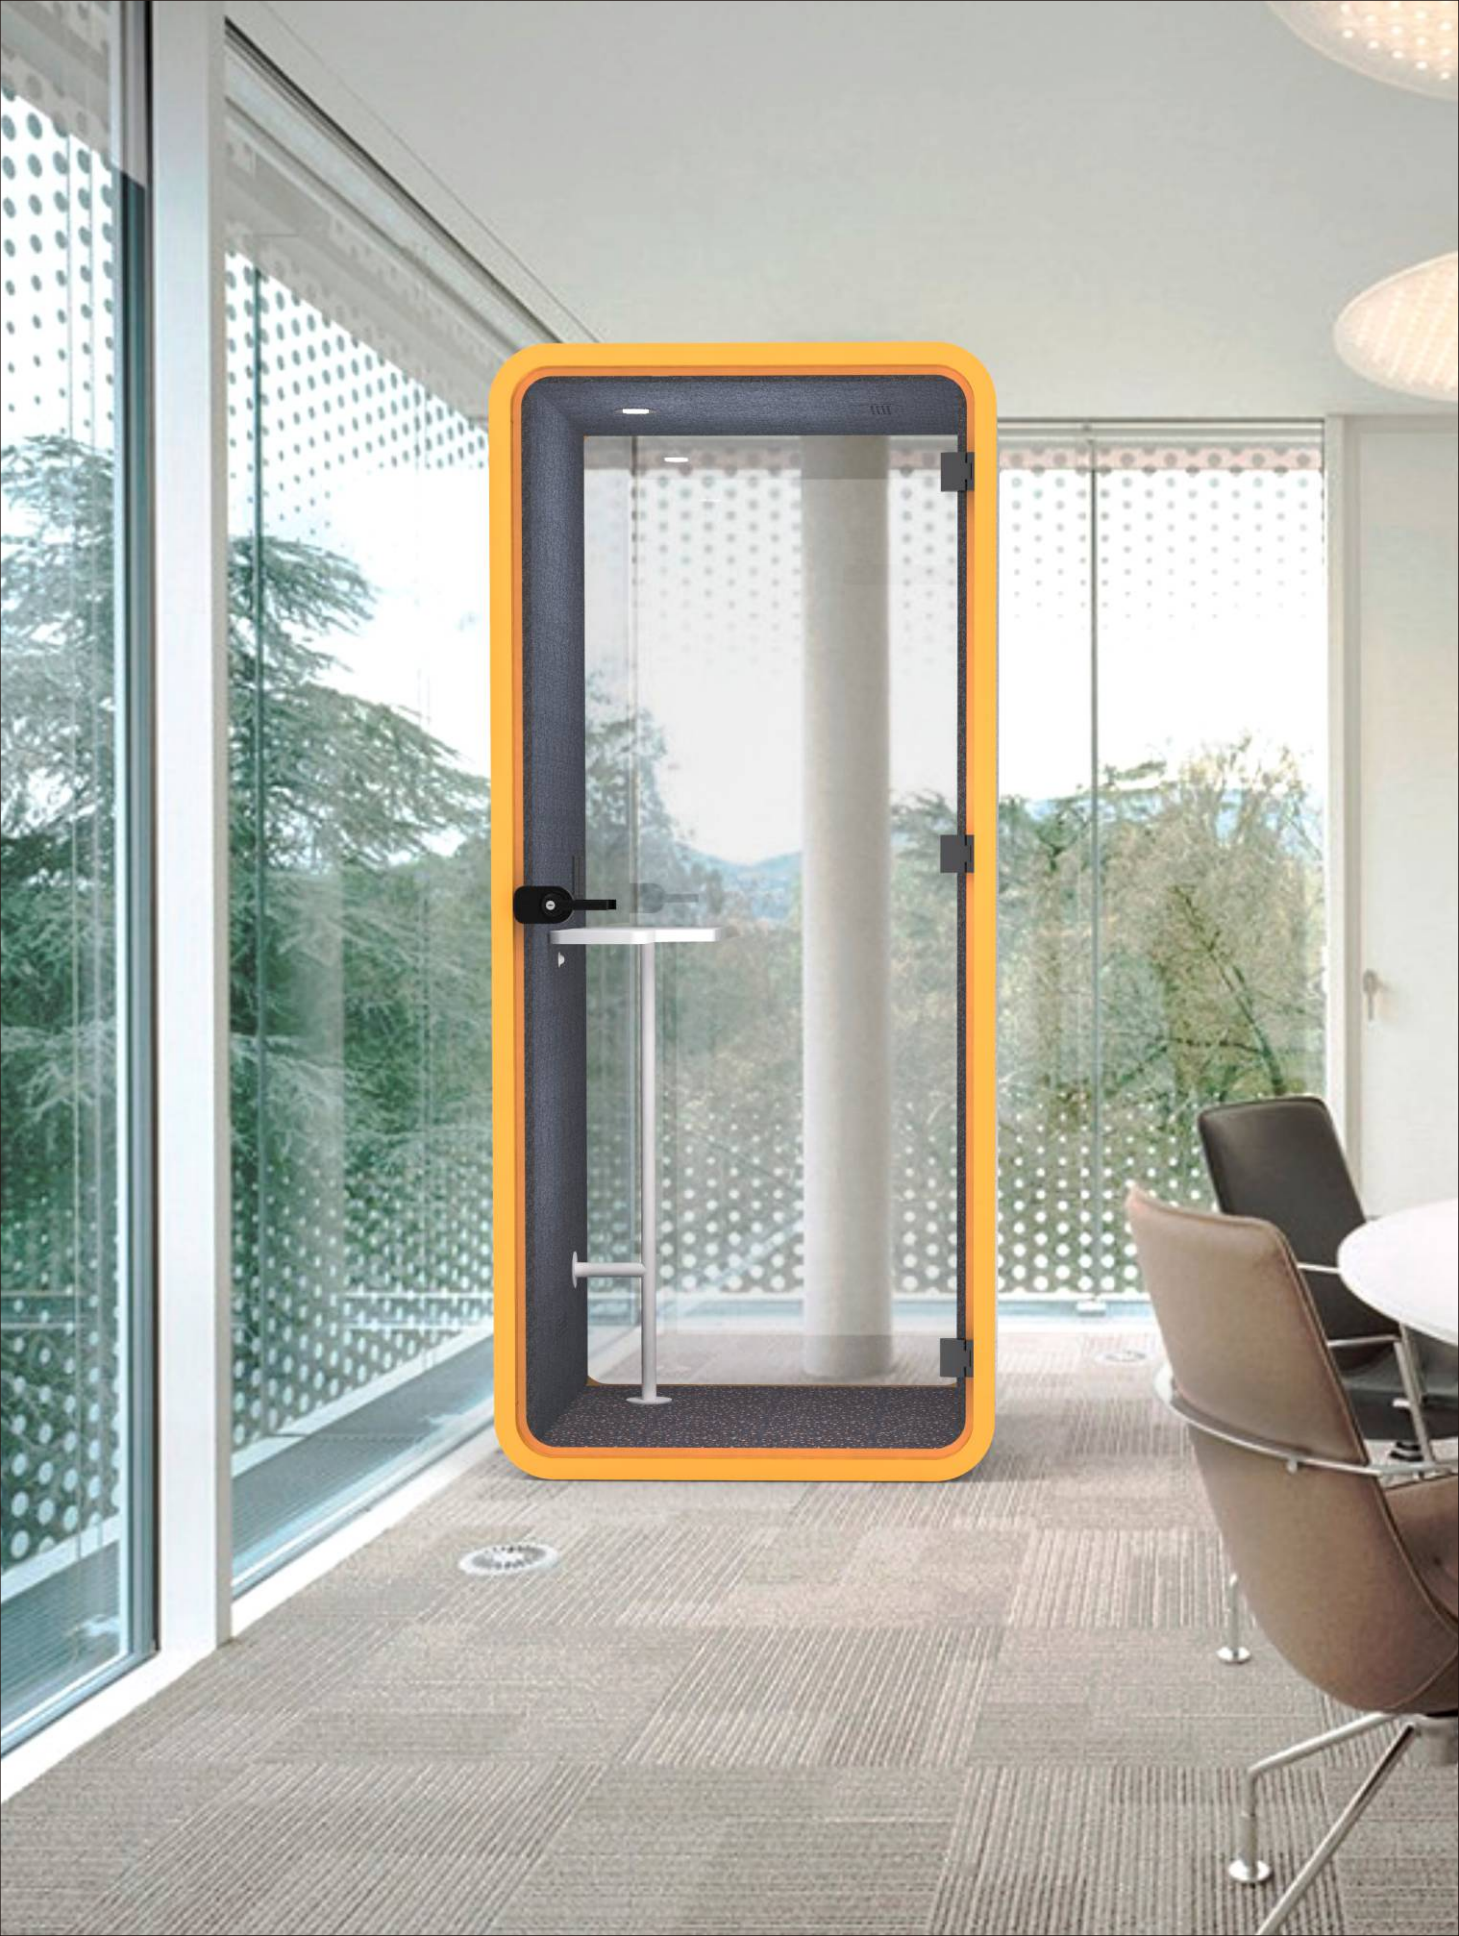

POD

About

Compared with the square, the arc shape seems to have a touch of roundness, so Uispair launched the POD series of boxes. Heal the body and mind, this is what the future office should achieve. Uispair tries to create a space that integrates healing of physical and mental health, stimulating creativity, and strengthening emotional resonance, so as to realize the three experiences of "restart, creation, and socialization". In our view, social and commercial development has spawned an increasingly high-intensity and high-speed work rhythm. In the process of mass absorption and output, people are more likely to enter a state of "saturation". Therefore, how to use all kinds of resources to treat people's mental health well through space, so that office space can play a truly active role in stimulating human creativity, innovation and value, and become an irreplaceable place. This is the main focus of our design.

比起正正方方，圆弧状仿佛多了一丝圆润感，因而优思佩继而推出POD系列的盒子。治愈身心，这是未来办公应该实现的。优思佩试图营造一个集治愈身心健康、激发创想及强化情感共鸣为一体的空间，以实现“重启、创造、社交”三种体验。在我们看来，社会和商业发展催生着愈发高强度和高速度的工作节奏，在大量吸收和输出的工作过程中，人们更容易进入一种“饱和”状态。因此，如何巧用各类资源，通过空间善待人们的精神健康，让办公空间在激发人类创意、创新和价值上发挥真正积极的作用，成为一个不可取代的场所，是我们的设计主要的关注点。

电话

Telephone

1000W | 1000D | 2250H 📞 🪑 🗑️ 🗑️ 🗑️

现代的商用环境的发展不断满足新的需求。越来越多的人希望找到声音与空间完美的解决方案，那样可以安静和更有效率的工作。为电话设立专门的区域，已成为一个友好、开放、满足员工真实需求的办公室的要素之一。好的解决方案是实施成本低和灵活的，这正是我们提供的。

The modern business environment continues to meet the needs of different people. More and more people are expressing the hope of finding the perfect solution for sound and space, which can make them work peacefully and efficiently. The establishment of a dedicated area for telephone communications has become one of the key elements of a friendly, open office that meets the needs of its staff. The best solution would be to implement low-cost and flexible solutions, which is what we offer.

TELEPHONE

在北欧简洁风格的设计之下，灵活的应用形态也为工作生活注入额外的缤纷活力。除了提供多功能的沟通用途之外，内部还有可放置笔记本电脑的桌面，更能随心组装需要的设备。有了这个可爱的“室内私人电话亭”，从此不用担心开放空间中的嘈杂声了！

现代的商用环境的发展不断满足新的需求。越来越多的人希望找到声音与空间完美的解决方案，那样可以安静和更有效率的工作。为电话设立专门的区域，已成为一个友好、开放、满足员工真实需求的办公室的要素之一。好的解决方案是实施成本低和灵活的，这正是我们提供的。

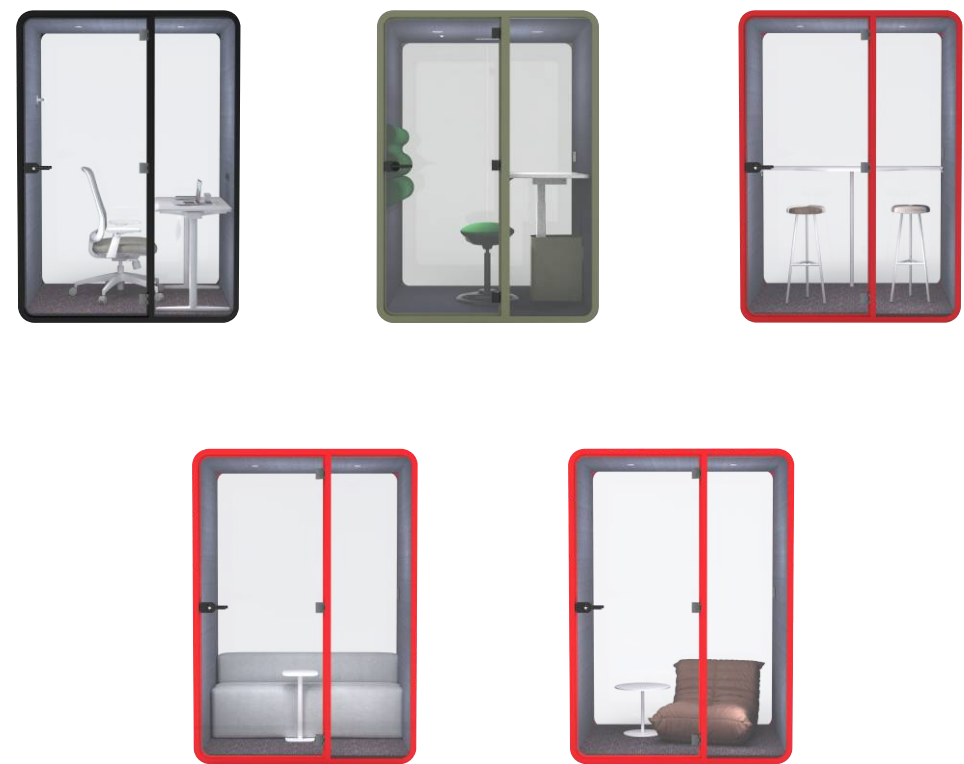

Under the Nordic concise design, the flexible application form also injects additional vitality into work and life. In addition to providing multi-functional communication purposes, there is also a desk for pens, notebooks, and computers inside, so you can assemble the bar chairs you need. With this cute "indoor private phone booth", you don't have to worry about the noise in the open space!

The development of the modern commercial environment continues to meet new demands. More and more people want to find the perfect solution for sound and space, so that they can work quietly and more efficiently. Setting up a dedicated area for telephone calls has become one of the elements of a friendly, open office that meets the real needs of employees. A good solution is low-cost and flexible to implement, which is exactly what we provide.

工作/水吧/洽谈/休息
Work/Water bar/Negotiate/Rest
1600W | 1300D | 2250H 灯 电 插 座 1

吧台盒子是工作间隙交谈休息的灵活解决方案，模块里包含了内置灯光和电源插座，简洁高效的吧台桌椅组合，这里提供了简易的休闲模式。矩形的形状让它便于适应各种办公室的装修和布局。由于它是独立的，可以很容易的移动和调整，并且拼接组合，这让周围环境更加融合。我们提供封闭独立的休闲解决方案，它具有工作期间简易的休闲交谈或独处的功能，以确保你身心可随时得到“充电”。

The bar box is a flexible solution for conversation and rest between work. The module contains built-in lights and power sockets, a simple and efficient combination of bar tables and chairs, which provides a simple leisure mode. The rectangular shape makes it easy to adapt to the decoration and layout of various offices. Because it is independent, it can be easily moved and adjusted, and combined together, which makes the surrounding environment more integrated. We provide a closed and independent leisure solution, which has the function of simple casual conversation or solitude during work to ensure that your body and mind can be "charged" at any time.

在竞争激烈、匆匆忙忙的社会环境中，尤其是繁华都市中，人们极其向往一块远离喧嚣的清静之地，能拥有自己的私密空间和独处时光。然而这个愿望放在这开放式的环境中，真的很奢侈。封闭的空间设计可让使用者暂时脱离喧嚣的外部环境，进入到一个相对安静且不受打扰的私人空间。出于工业设计人性化的思考，设计师们设计出了独处盒子，只为给忙碌生活中的你一段独处静坐思考的时光。

In the fiercely competitive and rushed social environment, especially in the bustling city, people yearn for a clean place away from the hustle and bustle, where they can have their own private space and time alone. However, this desire is really extravagant in this open environment. The closed space design allows users to temporarily escape the noisy external environment and enter a relatively quiet and undisturbed private space. Out of the humanized thinking of industrial design, designers have designed a solitary box, just to give you a time to sit and think alone in your busy life.

睡眠

Sleep

1200W | 2200D | 2000H     

睡眠盒子是灵活的独立短时休息模块，并且可以随地安排在各种空间中，通过关开窗帘保证安全及隐私。里面配置有一个舒适的床垫，带有衣物悬挂模块及放置个人物品的边柜，并配备音响和电源系统。前置照明用红色灯光来帮助进入睡眠，而用蓝色灯光及音乐用来唤醒用户，盒子整体具有降噪隔音功能，并有专门的通风口及新风系统使空气循环流畅，这样能帮助用户在一个安静的环境里达到快速及深度的睡眠。智能系统还有预约时段及定时唤醒功能，让行程或工作不再耽误。

The sleep box is a flexible, independent, short-term break module that can be arranged in a variety of spaces, ensuring security and privacy by closing the curtains. It is equipped with a comfortable mattress, a clothes hang module and a side cabinet for personal items, and is equipped with audio and power supplies. Front lighting uses red light to help you get to sleep, while blue light and music are used to wake up, The whole box has noise reduction and sound insulation function, and special vents make the air circulate smoothly, which can help the user achieve fast and deep sleep in a quiet environment. The intelligent system also has the function of appointment and periodic wake-up so that the trip or work can not be delayed.

工作/洽谈/水吧
Work/Negotiate/Water bar
2200W | 1500D | 2250H 📏 🪑 🪴 🧼 🚰

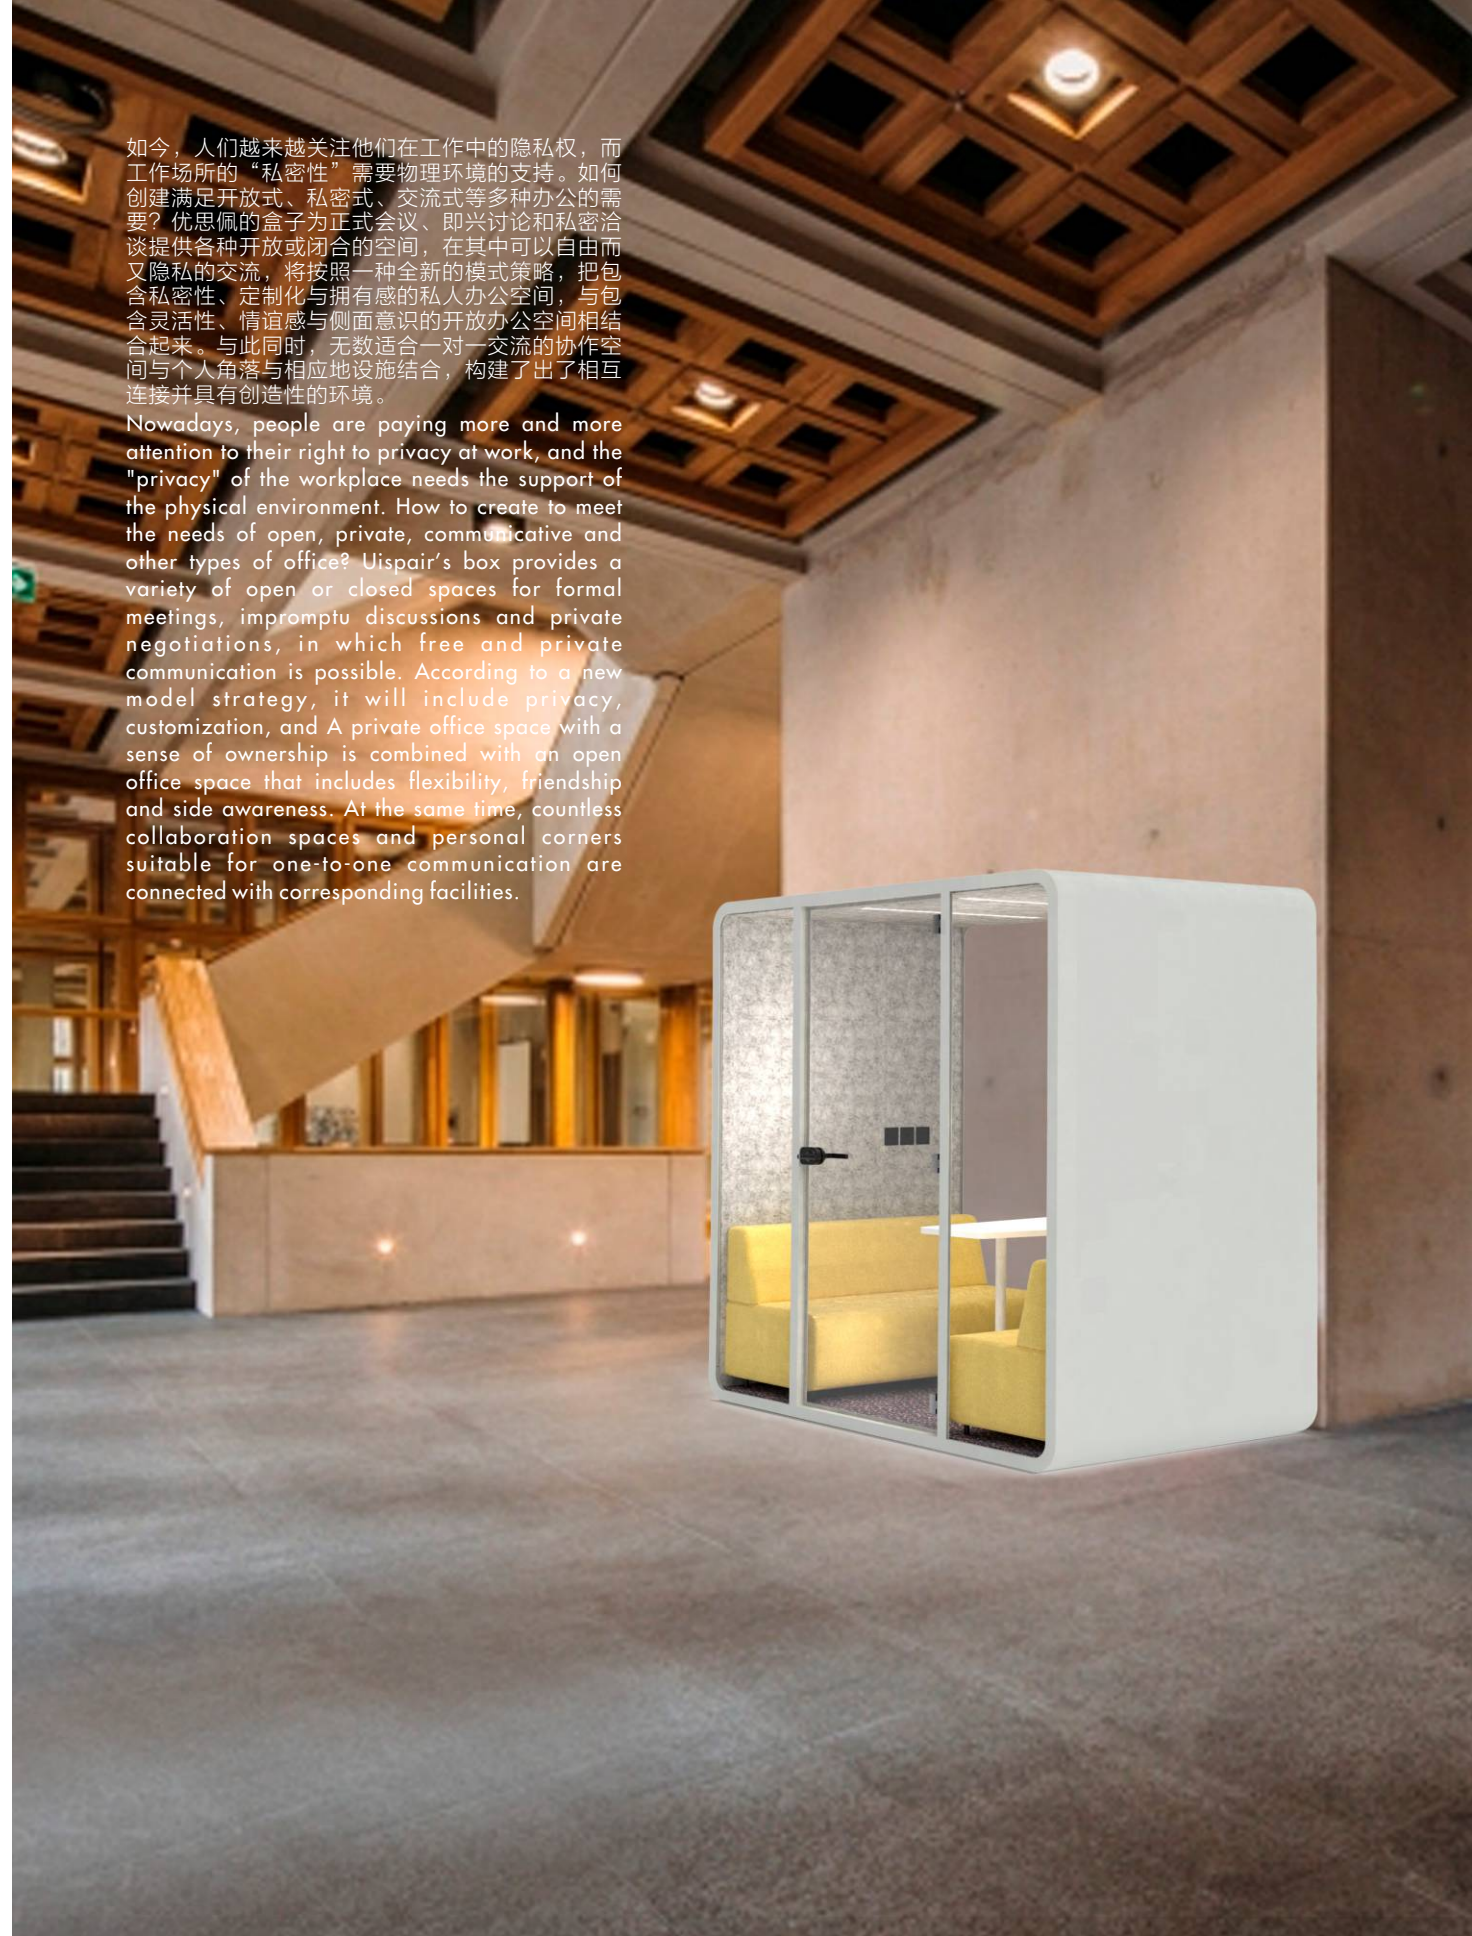

洽谈盒子模块是为商用空间或办公室里的非正式会议及快速沟通而设计的。它是一个独立的空间，具有独立的隐私性，半开放形式对用户来说也更经济并且实用。高效的吸音板块非常适合小团队进行交流，促进创造力和新想法。符合人体工程学的沙发确保长时间洽谈的舒适性。它可以是一个独立的洽谈区域，但也成为空间的分割及组合模式。

The communication box (Open) module is designed for informal meetings a commercial space and rapid communication. It's a separate space with its own privacy, and semi-open formats are more affordable and practical for users. and efficient sound-absorbing panels are ideal for small teams to communicate, promote creativity and new ideas. Ergonomic sofas ensure comfort during longer meetings. It can be an independent negotiation area, but also a spatial partitioning and combination model.

如今，人们越来越关注他们在工作中的隐私权，而工作场所的“私密性”需要物理环境的支持。如何创建满足开放式、私密式、交流式等多种办公的需要？优思佩的盒子为正式会议、即兴讨论和私密洽谈提供各种开放或闭合的空间，在其中可以自由而又隐私的交流，将按照一种全新的模式策略，把包含私密性、定制化与拥有感的私人办公空间，与包含灵活性、情谊感与侧面意识的开放办公空间结合起来。与此同时，无数适合一对一交流的协作空间与个人角落与相应地设施结合，构建了出了相互连接并具有创造性的环境。

Nowadays, people are paying more and more attention to their right to privacy at work, and the "privacy" of the workplace needs the support of the physical environment. How to create to meet the needs of open, private, communicative and other types of office? Uispair's box provides a variety of open or closed spaces for formal meetings, impromptu discussions and private negotiations, in which free and private communication is possible. According to a new model strategy, it will include privacy, customization, and A private office space with a sense of ownership is combined with an open office space that includes flexibility, friendship and side awareness. At the same time, countless collaboration spaces and personal corners suitable for one-to-one communication are connected with corresponding facilities.

电影/母婴室/声乐

Cinema/Mother and baby /Vocal

2200W | 1500D | 2250H 🗑️🗑️🗑️🗑️🗑️

生活空间中有许多的独立区域，比如母婴室、钢琴房、私人影院。优思佩盒子它是灵活可移动的,也是空间中的一道风景，它可根据需求灵活组合创新。

There are many independent areas in the living space, such as maternity and infant rooms, piano rooms, and private theaters. The Universal Box is flexible and movable, and it is also a landscape in the space. It can be flexibly combined and innovated according to needs.

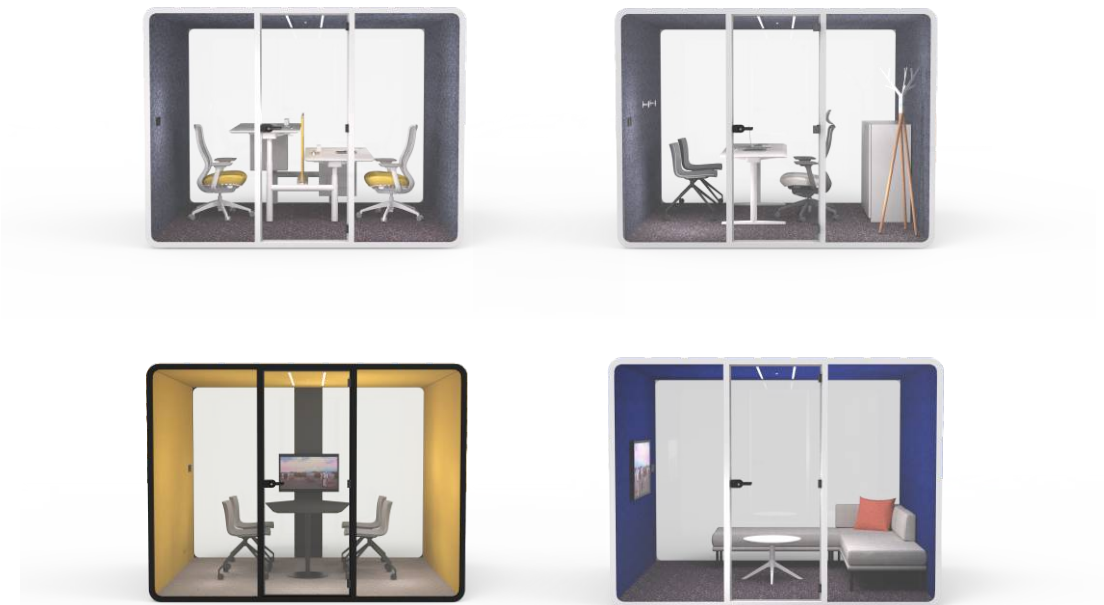

私人影院具有一定的私密性，观看电影的时候可以无拘无束，不用在意自己的坐姿，不用克制住自己爽朗的笑声，带小孩也不用担心会影响到其他人。既能满足大家对观影私密性的需求，也符合电影爱好者想看经典好电影的要求，既有影院的视觉声效体验，又兼顾了私密性，全新的观影方式给顾客看电影增加了不少新鲜体验。一个私密而优雅的空间，舒适而宽大的沙发，可以享受一场非凡的视听盛宴。

The private theater has a certain degree of privacy. When watching movies, you can be unrestrained. You don't have to care about your sitting posture, you don't have to restrain your hearty laughter, and you don't have to worry about affecting other people with children. The private theater is a small independent theater, which can not only meet everyone's demand for privacy in watching movies, but also meet the requirements of movie lovers who want to watch classic and good movies. It not only has the visual sound experience of the movie theater, but also takes into account the privacy and a brand new view. Movie mode adds a lot of fresh experience to customers watching movies. Nowadays, young people have gradually become the main consumers of the movie market, and movies have also been integrated into the lives of every young person and everyone. In a private and elegant space, comfortable and spacious sofa, you can enjoy an extraordinary audio-visual feast by meeting three or five friends or bringing a beloved partner.

工作/会议/洽谈
Work/Meeting/ Negotiate
3000W | 2600D | 2250H 📏 🪑 🪴 🗑️ 🚪

在现代越来越快的生活和工作节奏中，如何让洽谈空间更具时代感和功能性显的由为重要。在整个办公室设计中，洽谈室是一个快速接洽访客及灵活沟通的空间，整体功能体现可以用“快速”“高效”来形容。好的洽谈室从布局上来说，首先是非常通透和明亮的，通透可以让人不压抑，明亮的环境则让人心情愉悦。色彩也是洽谈空间中的一个重要元素，在明亮的空间环境中加入舒适的色彩，提升空间感观的作用明显的，变得更加灵动而且赋有生机，加深人的感观印象。洽谈盒子，这是新的沟通空间组建方式。

In the fast and fast pace of modern life and work, how to make the communication space more modernity and functional is of great importance. In the whole office design, the meeting Room is a space for quick contact and flexible communication. The overall function of the room can be described as "fast" and "efficient". Good meeting room from the layout, the first is very transparent and bright, the transparency can let people not repress, bright environment is pleasant to people mood. Color is also an important element in meeting space. In the bright space environment to add the comfortable color, enhance the spatial sense of the role is obvious. It will become more active and vital, and deepen the impression of human feeling. The communication box, this is the new communication space way.

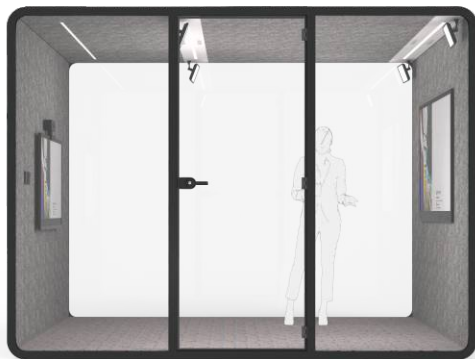

各个办公区域之间有明显的界限和独立的空间，灵活的空间增减方案。办公场所的噪音水平不应超过55分贝，而没有适当降噪措施的空间，特别是开放的办公空间内甚至可以达到65分贝，会导致疲劳和工作效率的降低。智选模块：新风系统、音响及智能控制。移动互联科技时代，多媒体视屏模块让沟通洽谈更加方便。高度隔离的环境，可以作为临时安静的空间，也可以用于小型会议或视频会议，提供高达45分贝的保护。好的色彩方案可以有效地对空间产生区域划分，丰富空间层次。

Clear boundaries and separate space between office areas, flexible space growth and reduction options. The noise level in the office should not exceed 55 decibels, while the space without proper noise reduction space, especially in open office space, can even reach 65 decibels, which will lead to fatigue and reduced work efficiency. Smart Selection Module: Exhaust System, Audio and Intelligent Control. Multimedia Video Display Module Makes Communication More Convenient in the Age of Mobile Interconnection Technology. A highly isolated environment that can be used as a temporary quiet space or for small meetings or video meetings, provides protection up to 45 decibels. A good color scheme can effectively divide the space into regions and enrich the spatial hierarchy.

直播/授课

Live broadcast/Teaching

3000W | 2600D | 2250H 📶 📡 📷 📺 📢

直播/授课盒子是灵活的独立授课讲解模块，并且可以随地安排在各种空间中，包括一系列的灯光和显示屏幕模块完美的配合。不需要重新构建及装修，每一个产品都是room-in-a-box，快速解决空间的简单授课方案。这里非常适合简单的直播或授课，高效的吸音模式非常适合进行业务的讲解传授，多媒体视屏模块让授课、讲解询问变得更加方便，并且立面可以实现可钉可吸功能，让分享及展示无限。

The live broadcast/teaching box is a flexible independent lecture module, and can be arranged in various spaces anywhere, including a series of lights and display screen modules that perfectly cooperate. No need to rebuild and decorate, each product is a room-in-a-box, a simple teaching plan that quickly solves the space. It is very suitable for simple live broadcast or teaching. The efficient sound absorption mode is very suitable for business explanation and teaching. The multimedia video screen module makes lectures, explanations and inquiries more convenient, and the facade can be nailed and sucked for sharing and display. unlimited.

Characteristic

特性

健康/安全 Health / Safety

整体产品经过严格选材, 65%以上材料采用可循环利用材质;为保障空间内空气、光源健康, 主体采用优质钢材及全环保树脂粉末涂装, 吸音材料采用环保PET或丹麦rockfon无机吸音岩棉, 光源采用高光效led灯具, 布料使用欧洲进口无毒害印染, 吸音材料及地毯均采用无胶水拼装工艺安装, 符合欧洲ROHS标准。结构安全, 产品通过SGS测试, 稳固、快捷的安装便于后期的多次利用。

The overall product has through strict selection of materials, and more than 65% of the materials that care for the earth are made of recyclable materials; in order to ensure the health of the air and light sources in the space, the main body is coated with high-quality steel and fully environmentally friendly resin powder, and the sound-absorbing materials are environmentally friendly PET or Danish rockfon Inorganic sound-absorbing rock wool, the light source adopts high-efficiency led lamps, the fabric uses European imported non-toxic printing and dyeing, which meets the European ROHS standards. The structure is safe, the product has passed the SGS test, and the stable and fast installation is convenient for multiple use in the later stage.

隔音 Soundproof

完善的外结构设计将声音最大限度的间隔于空间之外, 并对新风通道进行消音处理, 多重声障式的设计解决漏音问题; 整体按照NSUL MARSHALL ACOUSTIC声学模拟设计, 空间内55%当量面积为吸声物, 吸音材质为高品质的PET吸音板或丹麦rockfon吸音岩棉, 实现宽频响应局部物料特殊工艺处理, 技术整合了40%当量面积的活跃反射声, 成功构建了一个吸声隔声减振的声学模型。

The perfect external structure design separates the sound from the space to the utmost extent, and silencing the fresh air channel, and the multiple sound barrier design solves the problem of sound leakage; the overall design is based on NSUL MARSHALL ACOUSTIC acoustic simulation design, 55% equivalent area in the space as a sound absorb, the sound-absorbing material is high-quality PET sound-absorbing panel or Danish rockfon sound-absorbing rock wool, which realizes special processing of broadband response local materials. The technology integrates 40% of the equivalent area of active reflected sound. The successfully constructed an acoustic model of sound absorption, sound insulation and vibration reduction.

照明/电源 Lighting/Power

盒子内采用4000K自然光色温高效LED照明系统, 标配150-400 LX光照满足常态使用需求。并且不同功能的应用采用不同定点照明,充分结合办公环境、灯具的配光曲线、照度等因素以求实现最好的照明效果;专业预置可扩充电源模块, 提供满足使用需求适配100-240V/50-60Hz二、三插功能和12V—USB电源供应系统, 符合主流设备器材和能源环境使用, 并且独立开关分别控制照明灯及排气扇。

The box uses a 4000K natural light color temperature high-efficiency LED lighting system, and the standard 150-400 LX illumination meets the needs of normal use, minimizing the harm of blue light. The spectrum does not have ultraviolet and infrared rays. And the application of different functions adopts different fixed-point lighting, fully combining the office environment, the illuminance and other factors to achieve the best lighting effect; professional presets and expandable power modules are provided to meet the needs of the use of 100- The 240V/50-60Hz two-three plug function and 12V-USB power supply system are in line with mainstream equipment and energy environment use.

新风 Fresh air

根据空间大小采用单个或多个超静音风扇, 多重声障式的设计解决吸音问题, 大大降低了新风系统的噪音, 科学的空间内外的空气交互设计, 每两三分钟便可完全更新一次盒子内空气, 并将室内冷、热空气交互到空间中来, 保持舒适体感。还可根据需求定制设计, 增加选配空气净化器二次对空间的处理, 也可以直接对接室内新风管道或独立安装空调系统, 让使用方式更加多样。

According to the size of the space, single or multiple ultra-quiet fans are used. The multiple sound barrier design solves the sound absorption problem, greatly reducing the noise of the fresh air system. The scientific air interaction design inside and outside the space can completely update the box every two or three minutes. Inner air, and interactive indoor cold and hot air into the space to maintain a comfortable body feel. The design can also be customized according to needs, and the optional air purifier can be added for secondary treatment of the space. It can also be directly connected to the indoor fresh air duct or independently install the air conditioning system to make the application more flexible.

便捷/移动 Convenient/Mobile

空间盒子从设计上就考虑了安装的简便和快捷性, 是我们对产品的态度。全模块化设计从开始安装到系统投入运行, 只需花上二、三个小时的时间, 并且操作简便, 能快速达成效率, 产品可即装即用;考虑到用户使用需求及时间发展变化, 所有的产品都可以多次空间转换重新装配使用, 并且可选配移动轮底架系统, 方便快速移场, 通过这个装置, 会给您的工作便利带来大不同!

From the design of the space box, the ease and speed of installation are considered, which is our attitude to the product. The fully modular design takes only two or three hours from the beginning of installation to the system being put into operation, and it is easy to operate and can quickly achieve efficiency. The product can be "installed and used"; taking into account user needs and time with development and changes, all products can be reassembled and used for multiple space conversions, and can be equipped with a movable wheel type chassis system, which is convenient and quick to move. Through this device, it will definitely bring great differences to your work convenience!

功能/定制 Function/Customization

空间盒子在办公空间多种灵活的应用场景改变了工作方式, 并提供健康灵活的独立空间;在其它公共空间的使用也非常广泛, 可以通过定制方式对解决私密、独立、隔音、安全等不同需求的应用。比如直播空间、学习空间、睡眠空间、水吧空间、更衣空间、母婴空间、声乐练习空间、观影空间, 专业的医疗服务、自动售卖服务等多样空间产品。并且可以采用科技化及5G技术实现联动管理及远程收费功能。

The multiple flexible application scenarios of the space box in the office space change the way of working, solve various different work forms, and provide a healthy and flexible independent space; but the space box is also widely used in other public spaces, and can be customized Applications that need to address different needs such as privacy, independence, sound insulation, and security. Such as live broadcast space, learning space, sleeping space, leisure water bar space, dressing space, and more professional medical services. And can use technology and 5G technology system to achieve linkage management and remote charging functions.

吸音模式 Sound Absorption

高效、环保的降噪吸音配置- 丹麦ROCKFON岩棉。盒子内部双侧面及顶面都采用包布饰面+内部吸音模块，对声音平行传动及上行传动进行有效吸收，大幅降低止对外传播及保障隐私，同时也具备降低外部噪音对盒子里人员干扰，它的体量特性还可以起到空间分隔作用并阻挡声音扩散，这对独立空间非常重要。

Efficient and pro-environmen noise reduction sound absorption configuration - Danish ROCKFON rock wool. Double side and top surface of the box are covered with cloth finish + internal sound absorption module ,effective absorption of sound parallel transmission and uplink transmission, sgnificantly reduce external communication and protect privacy. At the same time, it also has the function of reducing the external noise to the person in the box, and Its physical properties can also separate the space, preventing the spread of sound,

特性 Characteristics

- 洁净环保，火山岩是生活中广泛应用的优质水质净化材料。
- 纯无机材料，不含有机质，不会滋生细菌等微生物。
- 原料取之不尽，减少资源浪费。
- 产品防火等级为A1级，理想的防火材料。
- 保温节能。
- 吸音/隔音。
- 轻质
- Clean environment: Volcanic rock is the high quality water purification material widely used in life.
- Pure inorganic materials, no organic matter, can not breed bacteria and other microorganisms.
- Raw materials are inexhaustible and resources are wasted.
- Product fire grade A1 , ideal fireproofing material.
- Heat preservation and heat insulation
- Sound absorption / sound insulation.

吸音 Sound Absorption

ROCKFON产品NRC = 0.65 ~ 1.0 大部分产品NRC ≥ 0.9。
声音是具有自身向上及平行传动性的。吸声显示出可以将声波储存在物体表面并将其转化为一种难以察觉的热能一种能力。吸声通过消除声音的反射和减少回响时间来改善室内声音。吸音率一般用 α_w (加权吸声系数) 或NRC (降噪系数) 来表示，数值 为0 ~ 1，数值越高，吸音性能越好。 声音衰减显示了在吸音模块上减少声音/噪音传输的能力，具有良好衰减的吸音岩棉在一个空间里或和另一个空间之间扮演着声音屏蔽的角色。

ROCKFON products NRC = 0.65 ~ 1.0 , Most products NRC 0.9.
Sound has its own upward and parallel transmission. Sound absorption shows the ability to store sound waves on the surface of an object and convert them into an imperceptible form of heat. Sound absorption improves indoor sound by eliminating reflection of sound and reducing reverberation time. The sound absorption rate is usually expressed as α_w (weighted absorption coefficient) or NRC (noise reduction coefficient). The value is 0 ~ 1 , the higher the value, the better the sound absorption performance. The sound attenuation shows the ability to reduce the sound/noise transmission on the sound-absorbing module, and the well-attenuating sound-absorbing rock wool acts as a sound shield in one space or between another space.

环保 Environmental Protection

ROCKFON岩棉板符合最严格的室内空气质量要求，有些产品还获得了ISO5或ISO4洁净等级。岩棉还不含有机质，因此不会支持有害微生物的滋生。
ROCKFON rock wool board meets the strictest indoor air quality requirements, and some products also receive ISO5 or ISO4 clean grade. Rock wool does not contain organic matter and therefore does not support the growth of harmful microorganisms.

Absorption

吸音模式

智能控制 Intelligent Control Module

APP/液晶控制面板，二维码开门，智能会议室及场景切换 灯光控制、新风控制及电源控制管理，实现空间全智能控制及更多场景功能，并可实现远程控制及收费管理。

APP/ LCD screen control panel, qr code door opening, intelligent conference room and scene switching light control, Ventilation System control system and power supply control management, realize full intelligent space control and more scene functions.

灯光模块 Light Module

壁灯/顶灯采用24W德国欧司朗LED及控制件，显色指数达到85RA，铝材灯体，上下照设计，有效解决下照使用光源及上照环境光源，无色差、无频闪、光衰减等特点，有效解决光源及保护眼睛。

Wall light/ceiling light adopts 24W German osram LED and control parts, color rendering index reaches 85RA, aluminum lamp body, up and down lighting design, effectively solve the use of light source under the light and the light source on the environment, no color difference, no strobe, slow light decline and other characteristics, effectively solve the light source and protect the eye clear.

音响模块 sound moduler

智能蓝牙音响，远程遥控无线连接，完美支持安卓/苹果系统，智彩声学系统，高保音质，专业双通道分频处理，让工作及生活享受更好音质。

Intelligent Bluetooth sound system, remote control wireless connection, perfect support android/apple system, intelligent color sound system, high sound quality, professional dual channel frequency division processing, let work and life enjoy better sound quality.

新风系统 Ventilation System

新风系统采用恒氧洁净方式，超级净音，微正压原理，持续不断引入室外新鲜空气，新风量达到100m³/h，并通过3重过滤技术高效净化，有效去除TVOC、甲醛、异味及PM2.5等有害物质；室内气压大于室外，废气通过门缝或通气孔排出，形成完整新风系统，保障空气安全及冷气进入。

The Ventilation System adopts the method of constant oxygen cleaning, super clean sound and micro positive pressure principle, continuously introducing fresh air into the outdoor, the fresh air volume reaches 100M³/H, and highly efficient purification through three filtration technologies, effectively removing harmful substances such as TVOC, formaldehyde, peculiar smell and PM2.5. Indoor air pressure is greater than outdoor air pressure, and exhaust gas is discharged through the door opening or air vent, forming a complete fresh air system to ensure air safety and cool air access.

智能电视 Smart TV

挂墙式一体化智能电视系统+投屏器，43寸超高清液晶屏幕，支持wifi无线投屏及快速文件传输，HDMI\USB\AV\NETWORK多接口设计，杜比音效，AI系统，让多媒体应用无处不在。

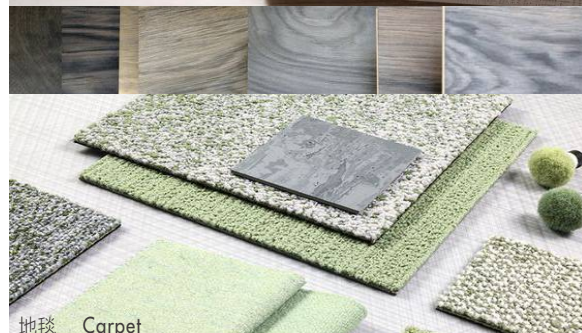

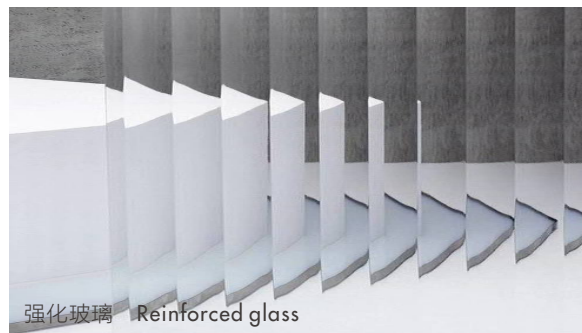

Wall-mounted integrated smart TV system + projector, 43-inch ultra LCD screen, support wifi wireless screen and fast file transfer, HDMI, USB, AV, NETWORK multi-interface design, dolby sound, AI system, so that multimedia applications everywhere.

选装配置

Configuration

Material

材料

65%以上材料可循环利用
More than 65% of materials can be recycled

强化玻璃 门/表板 Reinforced glass, door/ Surface plate

门及表板系采用单面优质强化玻璃，其具有良好的空间通透功能，并且材料抗冲击强度高，不易对人体造成伤害，更具有良好的热稳定性。

Door and Surface plate board system use one side high grade reinforced glass, it has good function for permeability, and material has high fights impulse strength tall, cause harm not easily to human body, have good thermal stability more.

铝材 框架 Aluminum frame

框架采用高强度成型铝型材,结构强度则可达到或超过结构钢特性，对整体结构组合稳定性有很大的帮助。并且可以大大减轻产品重量。

The frame is made of high-strength aluminum, and the structural strength can reach or exceed the characteristics of structural steel, which is of great help to the stability of the overall structure combination. And can greatly reduce the weight of the product.

钢制 表板 Steel plate

钢制表板采用优质冷轧钢板，表面平整度好，成型挂扣简便及精度高，并且材质物理性能稳定。

The steel plate is made of high quality steel with smoothness surface, and stable physical properties.

布板（内附钢板+吸音岩棉）表板/PET吸音板 Cloth board (with steel plate + sound-absorbing rock wool)

表板表面材制为涤纶布面，具有较高的强度与弹性恢复能力，耐用及耐热性最好的面料。布面能有效吸音，丰富的色彩起到很好的装饰作用。

The surface is made of polyester fabric, which has high strength and elastic recovery ability, and is the most durable and heat-resistant fabric. Cloth surface can absorb sound effectively, the colour has very good decorate effect.

采用的PET吸音板在125~4000HZ噪声范围内吸音系数达到0.9以上，缩短调节混响时间，清除声音杂质，改善语言的清晰度。并具有较好的防火性能，其甲醛检测结果为0.05mg/1，符合国家标准要求。产品具有保温、阻燃、轻体、稳定、抗冲击、维护简便等特点。

Using PET sound-absorbing board has a sound absorption coefficient of 0.9 or more in the noise range of 125~4000HZ, which shortens the adjustment reverberation time, removes sound impurities, and improves the clarity of speech. It also has good fire resistance, and its formaldehyde test result is 0.05 /1, which meets the requirements of national standards. The product has the characteristics of heat preservation, flame retardant, light weight, stability, impact resistance

地毯/胶地板 地面 Carpet/glue flooring floor

地面采用成品地毯，并且达到防火级别要求。地毯具有质地柔软、脚感舒适、使用安全的特点，其能有效减少噪声、隔热和空间装饰效果；咖啡屋地面采用成品PVC胶地板，其质地较软，耐磨程度强，并有效防水性防火性，是很好的环保材料。

The floor use finished carpets and meets the requirements of fireproof level. Carpet is soft, comfortable and safe, its can reduce noise effectively, heat insulation and decorate the space.

The floor of the coffee house is made of finished PVC rubber, which is a good environmental protection material with soft texture, strong abrasion resistance, and effective waterproof and fireproof.

Color

色彩

色彩就是空间的表情颜色，不仅会影响人的情绪，与我们的满意度、创意、效率有很大的关系，而且也会左右工作的效率。色彩搭配得好，不仅能让空间得到升华，也能让人在空间感到快乐。我们提供盒子色彩简洁大方，让空间营造轻松舒适的氛围，从而提高生活或工作质量。

白色和黑色百般搭配，它可以使人和空间舒适和谐；灰色是一种让人安静的色彩，具有与任何颜色搭配的多样性；红色充满激情，提高注意力，激励创新；黄色是开明乐观的颜色，充满能量；蓝色适合创意工作，它促进沟通、信任和效率；绿色能令人感到稳重和舒适的色彩，是视觉调节和休憩最为理想的颜色，促进色彩平衡，还可以提高创造性，如果你鼓励创新，将是一个不错的选择；紫色是极为随和，让人觉得充满雅致、神秘、优美的调性。

Colors not only affect people's mood, but also affect our satisfaction, creativity, and efficiency, as well as the effectiveness of our work. If the color collocation is good, not only can let the space get sublimation, also can let the person feel happy in the space. We offer box colors simple generous , so that the space to create a relaxed and comfortable atmosphere, thereby. improving the quality of life or work.

White and black. Anything goes with them, it can make the person and the space comfortable harmony; Gray is a quiet color, with any variety of colors to match; Red is full of passion, improve attention and stimulate innovation. Yellow is an open and optimistic color, full of energy; Blue is suitable for creative work, which promotes communication, trust and efficiency; Green can make a person feel steady and comfortable color, it is the most ideal color for visual adjustment and rest, promote color balance, still can enhance creativity, if you encourage innovation, will be a good choice; Purple is extremely easy-going, let a person feel full of elegant, mysterious, beautiful tonality.
