

STONE TABLE

EQUATE

PATENT HONORS

Three patents (1 invention patent, 1 utility model, 1 design)
From appearance to practical functionality, ensuring the uniqueness

The product has passed the most rigorous BIFMA safety test to ensure
personal safety during use

ALUMINUM ALLOY MATERIAL, LIGHTWEIGHT AND TOUGH,

Combining texture and
lightweight,
Easy to fold and move quickly

- Column wall thickness
4mm

Effortless Push

75mm diameter large wheel

Used in more complex environments to avoid small diameter wheels getting stuck in gaps or being tangled by fluff, which can cause movement lag.

Fixed feet optional

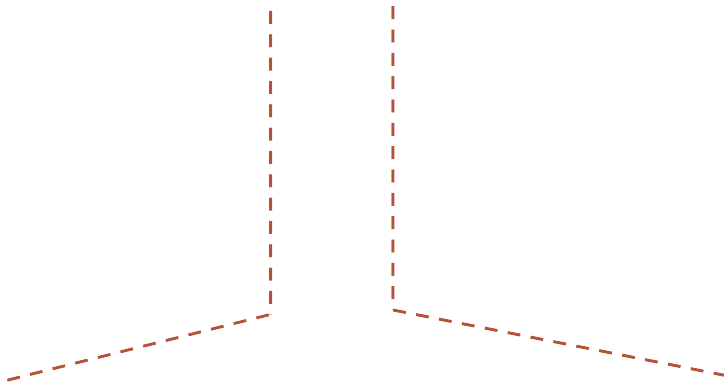

Bigfoot strap reversible fixed version: width≤W1600*D1100

Flip fixed version of small ankle strap: width≤W2000*D750

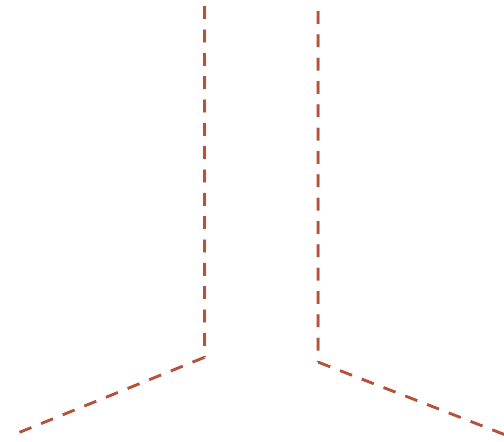

Y-SHAPED TRIANGULAR STABLE TABLE LEGS

The Y-shaped design at the bottom of the tripod is convenient for placing feet, and there are two types of feet for the table: large foot and small foot; Satisfy different scenarios and functional uses.

Bigfoot can be matched with countertop size: 2000*1000~2400*1100

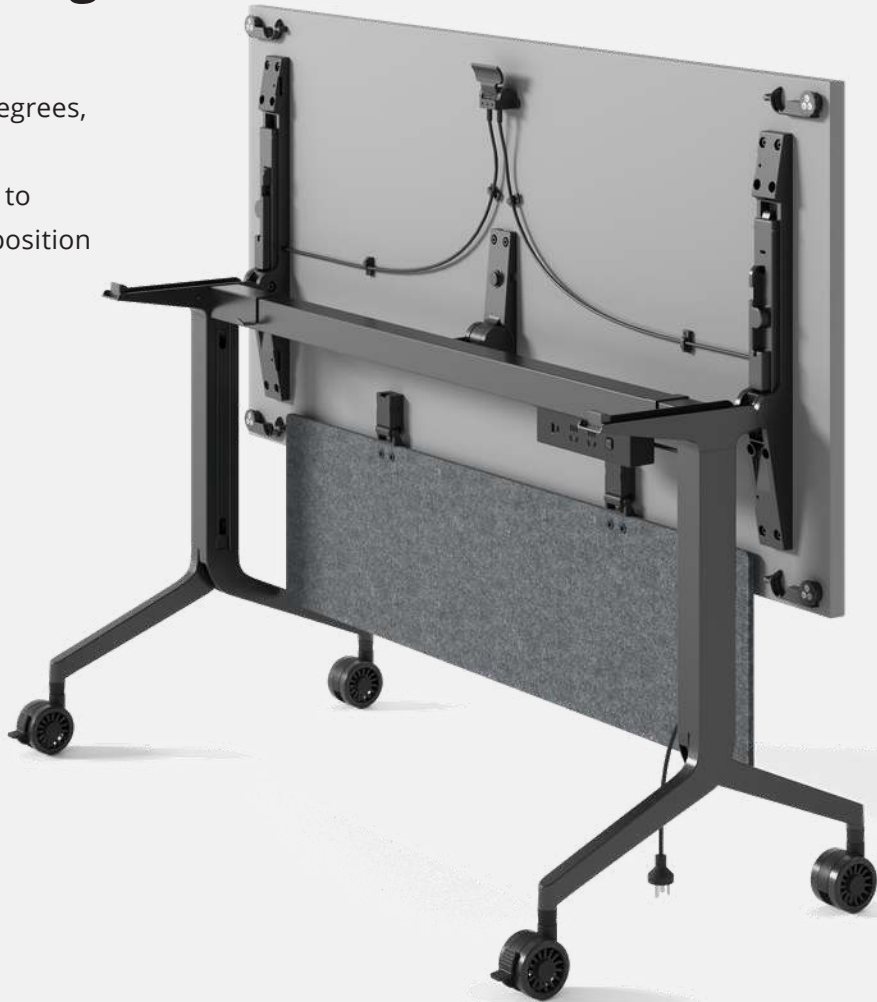

Small feet can be matched with countertop size: 1200*600~1800*800

**90 ° folding desk stand,
Efficiently utilizing limited space,
Easy to move without occupying space.**

Anti dumping design

After opening at 90 degrees,
With locking function
Unlocking is required to
return to its original position

Wire controlled handle,
easy to grip and fasten

Between individual training desks
Easy to connect and combine
Satisfy single-player card positions at any time
Rapid transformation of complex needs among
multiple people.

Horizontal and vertical splicing
with one buckle solution

MULTIPLE COMBINATION METHODS

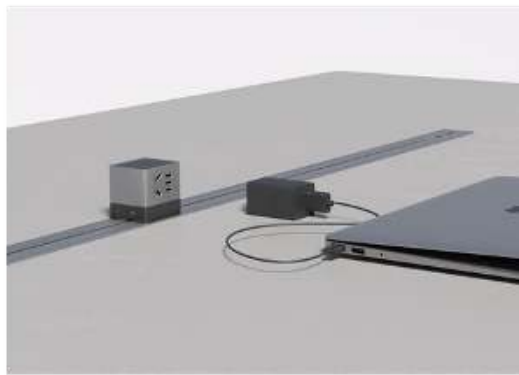

MULTIPLE COMBINATION METHODS

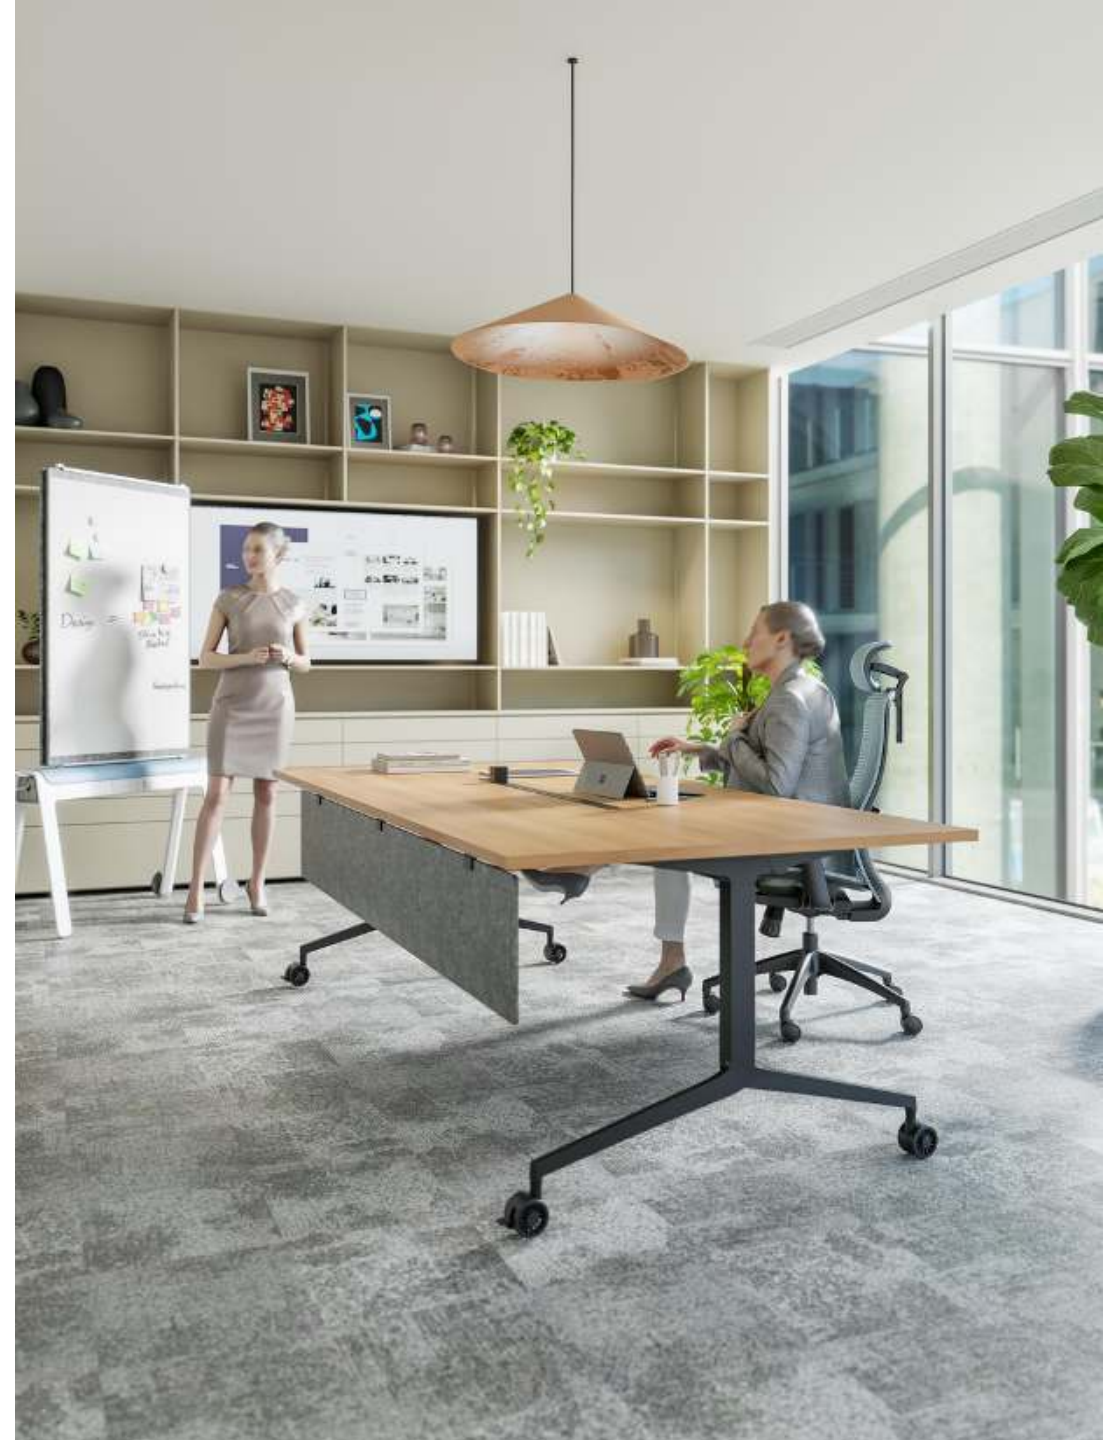

OVERSIZED

The maximum customizable countertop length is 2.4 meters, and countertops over two meters can not only meet the space requirements of large conferences, multi person discussions, and other scenarios, but also serve as conference tables, suitable for various places such as large corporate conference rooms, training classrooms, and seminar rooms. It provides sufficient and practical hardware support for team interaction, training, and meetings, realizing one table for multiple purposes, saving space and procurement costs.

Optional power rail

**THE TABLE FOOT GROOVE CAN BE
EMBEDDED WITH A PVC WIRING COVER,
INSULATED AND TRIP PROOF, PERFECTLY
CONNECTED TO GROUND LINES.**

The embedded wiring design of the support feet perfectly solves the problem of managing power lines from the ground. The wiring cover can be flexibly accessed, which effectively solves the power demand during use.

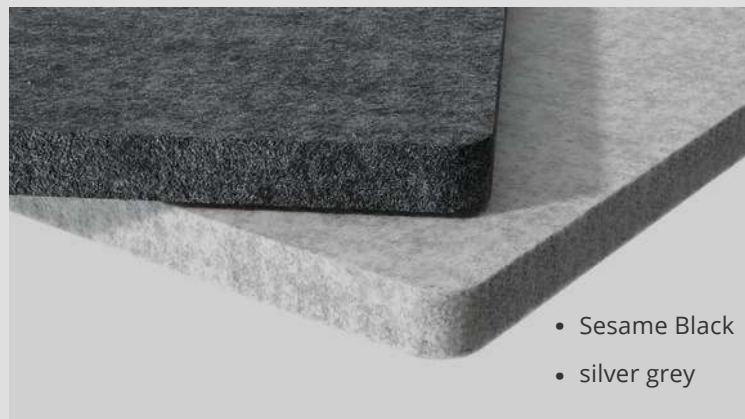

PAIRED WITH SOUND-ABSORBING BAFFLES

Sound absorption and noise reduction, enjoy quiet office work

The swing design of the sound-absorbing baffle avoids potential injuries and product damage caused by impact on the human body during use. The application of sound-absorbing materials effectively solves the hidden harm caused by invisible noise pollution in the usage environment, significantly reducing fatigue caused by long-term, high-intensity meetings or training, and increasing process focus;

Two colors to choose from

- Sesame Black
- silver grey

HOOK DESIGN

The hook can move freely on the crossbeam
Can be hung with a carry on bag

MULTIPLE COLOR OPTIONS

Table stand optional
Brown glitter silver
/gray glitter silver

Optional countertop
MFC color
/spray pink

Optional sound-absorbing baffle
Silver Grey
/Sesame Black

Silent wheel optional
Grey white
/black

SPECIFICATION AND SIZE

Product size:

L1400*W700/750/800*H750
 L1500*W700/750/800*H750
 L1600*W700/750/800*H750
